

WANTED

LATIN-

Dead or Alive

Project Guidelines:

This project will show you just how much Latin, as well as references to Greek and Roman Mythology, there is all around us. Let's go find them!

Your Mission:

You are to notice these references and document them in a **physical** file which you will deliver to Headquarters – Rm. 137 on **Mon. May 15, 2017**. A rough draft of this report is due on **Mon. April 24, 2017** so we can be sure our secret agents are on the right track!

Your file will contain the following:

- 1) A cover page with your name, section, date and a fun title.
- 2) At least **ten** documented sightings of:
 - a. Latin words/phrases (not derivatives)
 - b. Mythology references
 - c. Roman numerals (limit 2)
- 3) Each sighting page should have
 - a. A paragraph (4-5 sentences) description of what you found and what you thought about it. (What, Where Why)
 - b. A photo of the Latin phrase/mythology reference or the document that contains the phrase/allusion (postcard/ticket stub, etc.)
 - c. If you take a photo of something, make an appearance in the photo next to the item so we know you were really there.

You will be graded on:

- Following these directions
- Spelling and grammar
- Originality/creativity
- (see rubric on back!)**
